

Adjust local time on older Stoneridge SE5000 digital tachographs

1. From the primary default screen press the enter button ←

2. From the main menu press the up arrow until 'Setting' menu is displayed.

3. Press ← to enter the Setting menu; in this menu you will find 'Local Time'.

4. Press ← to enter the local time adjustment screen.

5. Use the up and down arrows to adjust the time in half hour increments until the correct local time is displayed. **BST = UTC + 1 hour / GMT = UTC**

6. Press  to store the new local time.

7. Press **X** button twice to return the tachograph to the primary default screen.
